

Soil quality controller  
& Plankton growth promoter

## Composition

Each Kg contains:

Calcium .....	300gm
Phosphorus .....	90gm
Magnesium .....	100gm
Iodine .....	500mg
Iron .....	6000mg
Zinc .....	104gm
Copper .....	500mg
Cobalt .....	200mg
DI-Methionine .....	2gm
Yeast .....	1000mg
L-lysine .....	4.5gm
Manganese .....	108gm
Selenium .....	0.05ppm
Molybdenum .....	0.00125ppm
Sodium .....	2000mg
Potassium .....	100gm
Chlorine .....	3000mg
Aluminium .....	1500mg
Borane .....	3000mg

With essential probiotics.

## Inclusion rate

5Kg per acre mixing with 20Kg of cowdung or silver sand with the presence of sunlight.  
For more plankton 10Kg per acre mixing with 20Kg of cowdung or silver sand with the presence of sunlight.

## Presentation

5kg, 10kg & 25kg

01

Increases the soil fertility

02

Increases minerals in soil & water

03

Maintains pH in the pond water

04

Maintains environment of the pond

05

Decreases production cost in aquaculture

More  
Phytoplankton
