

Natural solution for mastitis

Introduction

The most costly dairy industry disease, mastitis, creates problems that affect the animal, finances, and food safety. When evaluating the expenses associated with mastitis, dairy clients need to keep in mind that the financial loss associated with treating the disease extends beyond the cost of prevention.

Mastitis defined as inflammation of the mammary gland can have an infectious or non-infectious aetiology. Organism as diverse as bacteria, microplasma, yeast and algae have been implicated as causes of the diseases.

Composition

Combination of natural plants extracts oils with minerals.

Natural product developed with selected plants extracts, plants oil and micro minerals.

Benefits

- * Reduces pain & inflammation of udder.
- * Prevents flakes in milk.
- * Helps to fight Mastitis.
- * Improves immune system.

Inclusion rate

15gm twice daily in dry form with provided spoon.

Presentation

180gm with spoon
