

Sapomul

Sapomul is a “state of the art” emulsifier. It is designed to enhance fat and fat-soluble compounds digestibility in aquatic species.

Composition:

Its composition is based on the results of a comprehensive **Bioceutisch BV** R&D program. The objective of this thorough work was to determine which combination of active substances is the most efficient in cold-blooded animals.

Non Ionic Emulsifier

Strong hydrophilic action.

Improves the solubility and dispersion of micro-ingredients resulting in their optimized use.

Natural Saponin

Saponins are natural emulsifiers,
Saponins are also have surfactant and dispersing effects

Inclusion rate:

1 or 2 kg per ton of feed depending on the formulation context.

Presentation:

1KG, 5KG & 25KG
